

Team Commission System Specification

This document outlines the complete team commission structure, system logic, dashboard requirements, admin controls, and database recommendations for the multi-level commission system.

Commission Structure

User Level	Level A	Level B	Level C
Level 1	—	—	—
Level 2	12%	5%	2%
Level 3	13%	6%	3%
Level 4	15%	7%	5%
Level 5	16%	8%	7%
Level 6	18%	9%	8%

Core System Logic

- Automatically calculate commissions based on user level and team hierarchy.
- Commission percentages update dynamically after user upgrades.
- Separate tracking for Level A, Level B, and Level C team income.

User Dashboard Features

- Display total team earnings and separate team incomes.
- Provide commission history with filters.
- Show current level, upgrade progress, and benefits.

Admin Panel Features

- Commission control settings.
- Level management and reward monitoring.
- User income tracking and payout monitoring.

Recommended Database Tables

- Users Table
- Commission Settings Table
- Commission History Table

Recommended APIs

- /team/dashboard

- /team/history
- /admin/commission/settings
- /admin/reward/logs

Security & Performance

- Prevent duplicate payouts.
- Use transaction locking.
- Maintain audit logs.
- Optimize scalable referral structures.
